PROFILE SUMMARY

BSc (Computer Science) graduate from SPPU with a passion for building clean, responsive websites using HTML, CSS, JavaScript, and React.js. Completed 4 hands-on projects spanning full-stack development, demonstrating a strong drive to learn and deliver real-world solutions. As a fresher, eager to contribute to a team, grow through meaningful challenges, and create impactful web experiences.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js

Backend: Node.js, Python

Databases: MongoDB, MySQL, PostgreSQL

Tools: Git, GitHub, VS Code, Postman

PROJECTS

Appointment Booking System — *MongoDB · Express.js · React · Node.js*

- Built a full-stack MERN application for doctor search and appointment scheduling
- Implemented JWT-based authentication, protected routes, and RESTful API endpoints
- Designed responsive React UI with real-time slot availability and booking confirmation

Automated Report Generator — College Events — *MongoDB · Express.js · React · Node.js*

- Developed a MERN web app to automate generation of event reports for college administration
- Built dynamic form-based data entry with auto-populated PDF/report output using backend templates
- Reduced manual report preparation time with structured data storage in MongoDB

Diet Planner Application — *Java · PostgreSQL*

- Built a diet planner with full CRUD operations for managing personalised user meal plans
- Integrated PostgreSQL for efficient data storage; added user authentication and meal tracking

Personal Portfolio Website — *HTML · CSS*

- Designed and developed a responsive personal portfolio website to showcase projects and skills
- Deployed using GitHub Pages
